been restored from alarming and even desper-ate diseases of the lungs, by its use. When once tried its superiority over every other med-icine of its kind, is too apparent to escape observation, and where its virtues are known. the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs, which are incident to our climate.

Nothing has called londer for the earnest

prevalence and fatality of consumptive comprevalence and fatality of consumptive complaints, nor has any one class of diseases had more of their investigations and care. But as yet no adequate remely has been provided, on which the public could depend for protection from attacks upon the respiratory organs, until the introduction of the Cherry Pectoral. This article is the product of a long, laborious, and I believe successful en leavor, to furnish the believe successful en leavor, to furnish the community with such a remedy. Of this last THE undersigned is now secesiving a fresh statement the American people are now them-supply of DRY GOODS, direct from the selves prepared to judge, and I appeal with East, suited to the season, which he offers for confidence to their decision. If there is any lepen lence to be place I in what men of every class and station certify it has done for them if we can trust our own senses, when we see langerous affections of the throat and lungs yield to it, if we can depend on the assurance of intelligent Physicians, who make it their business to know, in short, if there is any Eclectic Pills! reliance upon anything, then is it irrefutably proven that this medicine does relieve and does ure the class of diseases it is designed for beyond any and all others that are known to mankind. If this be true, it cannot be too freely published, nor be too widely known. The afflicted should know it A remedy that
